  - (b) For business entities with sales revenue in more than one (1) tax district, by multiplying the net profit by the sales factor as set forth in subsection (3) of this section.
  - (c) For the purposes of subsections (1) thru (4) of this section, the business entity shall file an apportionment form provided by the Occupational Tax Office.

KRS 67.753

- (2) The payroll factor is a fraction, the numerator of which is the total amount paid or payable in the county during the tax period by the business entity for compensation, and the denominator of which is the total compensation paid or payable by the business entity everywhere during the tax period. Compensation is paid or payable in the county based on the time the individual's service is performed within the county.

    2. The property is shipped from an office, store, warehouse, factory, or other place of storage in the county and the purchaser is the United States government.
  - (b) Sales revenues, other than revenue from the sale, lease or rental of tangible personal property or the lease or rental of real property, are apportioned to the county based upon a fraction, the numerator of which is the time spent in performing such income-producing activity within the county and the denominator of which is the total time spent performing that income-producing activity.
  - (c) Sales revenue from the sale, lease, or rental of real property is allocated to the tax district where the property is located.

KRS 67.753

- (4) If the apportionment provisions of this section do not fairly represent the extent of the business entity's activity in the county, the business entity may petition the county or the county may require, in respect to all or any part of the business entity's business activity, if reasonable:
  - (a) Separate accounting;
  - (b) The exclusion of any one (1) or more of the factors;
  - (c) The inclusion of one (1) or more additional factors which will fairly represent the business entity's business activity in the county; or
  - (d) The employment of any other method to effectuate an equitable allocation and apportionment of net profit.
- (5) When compensation is paid or payable for work done or services performed or rendered by an employee, both within and without the county, the license tax shall be measured by that part of the compensation paid or payable as a result of work done or service performed or rendered within the county. The license tax shall be computed by obtaining the percentage which the compensation for work performed or services rendered within the county bears to the total wages and compensation paid or payable. In order for the county to verify the accuracy of a taxpayer's reported percentages under this subsection, the taxpayer shall maintain adequate records.

- (4) No church, religious congregation or religious society of any creed is required under the terms of this article to withhold or deduct any sum from the wages, salaries, commissions or other compensation due by such church, religious congregation or religious society to its employee as salaries, wages, commissions or other compensation; however, this failure to withhold by such employers such license fee shall not relieve the employees of such churches, religious congregations or religious societies from payment of license fees required by this article.
- (5) Nothing in this section shall be construed to mean that employees of churches, religious congregations or religious societies of all creeds (except duly ordained ministers) shall be relieved from the payment of any occupational license fee in compliance with all regulations established by the county with respect to making returns and payment of such fees.

KRS 67.783

- (6) Every employer who fails to withhold or pay to the county any sums required by this ordinance to be withheld and paid shall be personally and individually liable to the county for any sum or sums withheld or required to be withheld in accordance with the provisions of this section.
